

## NAMASTE

Namaste Namaste  
I see you..You see me  
I am You You are Me

## ALWAYS PERFECT

When all is said and done  
When every thing I know is melting into one  
When life has just begun  
The moving finger writes and then moves on

And we're all of us the same when we see it's all a game  
And all our hearts are open  
Then there's nothing left to say  
For it's all just perfect anyway

When every race is run  
And every cloud has moved across the sun  
When every song is sung  
The moving finger writes and then moves on

When every need is met  
And everyone has got what they set out to get  
When every deed is done  
The moving finger writes and then moves on

And we're all of us the same when we see right through the game  
And all our eyes are open  
Then there's nothing left to say  
For it's all just perfect anyway

## CELTIC BLESSING

And your heart beat strong and true  
An the way be long your path n"er tarry

### DREAMER

Shadow dancer will you walk with me tonight  
While my body lies so peaceful  
We could walk a million miles before the day breaks  
While the world is deeply sleeping

Shadow dancer will you walk with me tonight..Under the Stars  
In a dream we will awaken in the moonlight  
We could walk a million miles before the day breaks  
While the world is deeply sleeping

### JUST PASSING THROUGH

Something in the air - Just passing through  
It's just the way I'm feeling now - Here with you  
And I'm swimming in the deepest Ocean Depths  
Flying through the air and walking on the City streets  
Sitting on a park bench in the rain  
Falling in love again.

And I'm melting in the fire  
Of Love and Understanding  
Melting in the flames  
Of Love and understanding  
Just passing through

I hear Laughter through the open door  
A sound that I've never heard before  
Echoes of a time so long ago -  
Now everything is changing and  
I'm dancing to a thousand violins  
Singing in the trees and smiling on a million faces  
Carrying my suitcase out the door  
I'm crying out for more.

Well It's cloudy now and it looks like it might rain  
Don't know if I'll ever pass this way again  
There's a million rainbows in the sky -  
And if you're ever passing by  
Just call me and I'll be there  
Just passing through  
It's just the way I'm feeling now - Here with you.
